

CREATE YOUR OWN PLANET

1. Cut out the circle and draw in planet details (craters, ice caps).
2. Colour in the astronaut and the rocket ship and then cut them out.
3. Fold the tab on the astronaut and the rocket ship along the dotted line.
4. Glue the bottom of the tab and stick it on the planet.

Try drawing other things and adding them to your planet too.

MATERIALS REQUIRED

- Coloured pencils
- Scissors
- Glue stick
